

**B. & O. TO BUILD
INTO FULTON COUNTY
NOW WITHOUT LINES**

Only Section in State Lacking Railroads to be Traversed by Narrow Gauge.

JOSEPH E. THROPP THE BACKER

to Big System after Western Mary
land Negotiations Apparently Fail
'Two Roads May Compete.

Pennsylvania without a railroad. A narrow gauge road is to be built according to local reports, today.

mere supplying to Fulton county of railroad facilities, as it involves occupation of a part of the old South Penn route and a shorter route from Pittsburg to the Atlantic.

The Baltimore & Ohio is about t

verted from narrow to standard gauge to open the pathway into Fulton county. The immediate object is to furnish transportation for lumber.

One advantage enjoyed by narrow gauge railroads is their privilege to

freight. This advantage is expected to enable the road to pay out in a few years, when it can be converted to standard gauge, extended through Hancock, Md., and become a part of the shorter through route of the Baltimore

All arrangements for construction had been made, including a construction traffic agreement with the Pennsylvania railroad between Cumberland

of the project. The conversion of the narrow gauge line between Foxburg and Kane to standard gauge leaves the Baltimore & Ohio in possession of vast amount of idle junk that can be used to advantage.

erated as a feeder for the Pennsylvania
and as a connection for the Pennsylvania
vania's Cumberland branch. Trains
one run from Huntington to Cumberland
lead and vice versa, over these lines.
He has furnaces at Everett and Saxton
and many other large interests in Engle-

like to have another railroad in the territory. He has been trying to persuade the New York Central, represented by the Western Maryland, to build up the Clear Creek valley to Everett and take over the Broad Top Mountain road.

FIREMAN COONEY SUSTAINS INJURIES IN WATER BATTLE

William Cooney, formerly a member of the fire department and also member of the West Side Voluntary Fire Department, helped to win the water battle for Connellsville last week at the Uniontown Old Home.

Cooney went to Dr. R. S. McKee, who dressed the injury. In the water battle, Cooney also sustained an injury to his arm.

Free Transportation for Vets.
Free transportation via the West Penn is being offered to all members of the Fayette Veterans' Association to be held in the City Hall, Uniontown, Thursday, September 26. A

president of the association, a self-addressed envelope. The first session will be for the enrollment and receiving budget at 8.30. A business session at 10 A. M. will be followed by a dinner at 10 o'clock. The camp

Judge J. Q. Van Swearingen, of Uniontown, and the reply by Col. J. M. Schoonmaker, of Pittsburg.

and Chief Hietzel. Superintendent J. P. Ashe communicated with all the teachers to find out if any student had picked up the purse.

was started at the police station this morning, and a substantial sum realized. Another effort will be made this afternoon to locate the lost purse and, if unsuccessful, Mrs. Steiner will be sent on to Somerset. Mrs. Steiner has never before been known to be so nervous.

The children are Elizabeth, age 14, John Jr., aged 12, Paul, 10, Mary, 8, Andy 5, Edna 3.

LIGHTNING AND RAIN CAUSE DAMAGE HERE AND IN THE VICINITY

Continued From Page One.

light, and was compelled to return. He said the bottom was a lake. The bridge withstood the rush of water.

Water from the river ran down the Baltimore and Ohio railroad tracks, at South Connellsville, was struck yesterday morning at 10 o'clock. The bolt struck the chimney, demolished it and tore off a strip a foot and a half wide, about the size of a shoe.

The plant of the Ripley glass works was flooded and the factory forced to suspend operations, temporarily. Work will be resumed tomorrow.

The Street Committee of Connellsville made an investigation of the flood damage. The committee was called by Chairman Simon Hay.

Barney O'Connor suffered another heavy loss last night, when the ashes piled on the West Main street hill, were washed down.

Water came down South Pittsburg, W. C. Bishop had placed a box between the restaurant and the Hotel Wyman bar to stop the water from flowing in his cellar. A pedestrian stumbled against the box. His feet flew up and the box sailed on the crest of a "breaker" to the lower part and Main streets last night in a rush of Main street.

The West Penn. suffered another slide at Merrett. There were several slight delays when tracks were flooded by the water and dirt.

Dumber was not exempt from yesterday's storm. Twenty feet of the Pennsylvania tracks, south of town, were washed away. Towns along Water street were flooded when Dumber creek, swollen by the heavy rains, overflowed.

The W. J. Railway Company suffered heavy damage at the Fall line at Vandenberg. The storm last night, when the yards surrounding the yards were flooded and a number of houses were practically filled with water. The occupants were compelled to take refuge in the company store and in the church. No lives were lost. The water also entered the mine, but no workmen were in the shaft at the time.

Several empty coke cars on the siding, ready to be loaded this morning, were flooded by the water and destroyed by the flood.

The bridge at the Delco-McClure plant was washed away. The bridge at the James Reed planing mill at Dickerson Run was undermined. Several smaller bridges were washed away. Many chickens and other livestock are reported drowned.

One bridge was taken out in the Grand Ford, water entered company houses.

HADUCK PERHAPS FATALLY INJURED AT B. & O. SHOPS

Worker Caught Between Engine and Building and Squeezed.

Hospital Report.
Frank Haduck, employed at the Baltimore & Ohio shops, perhaps was fatally injured this morning when he was caught between an engine and a building. He received a substantial injury and was taken to the Carnegie State hospital, where he was operated upon this afternoon. Haduck is 31 years old and married. He lives at South Connellsville.

Charles E. Baltimore & Ohio shops, and Miss Ethel Merrett were discharged from the hospital this afternoon.

The report for the month of August follows: Number of patients treated, 10; discharged, 12; hospitalized, 31; died, 11; total remaining, 11; outside patients, 11; return visits, 15.

CONCRETE AND STEEL SCALE HOUSE IS NEARLY COMPLETED

Will Be Ready the Middle of This Month—Tippman in Charge.

The new eastbound scalehouse, in process of construction for many months will be completed the middle of this month. When completed the house will be the best on the Baltimore & Ohio system outside of New York and Chicago. The building is of concrete and steel. Scarcity of material has delayed erection since July 1st.

G. M. Tippman, in charge of the scale houses, will continue in charge. The new scale house is located a short distance north of the old. Recent improvements were completed at the westbound scales.

FOR 1912 BASKETBALL

Stockholders Meet and Decide to Reorganize September 10.

Stockholders of the Connellsville Basketball team will meet here for reorganization September 10, and to formulate detailed plans for the opening of the league season here. Directors of the local team, at a meeting Saturday, discussed tentative plans and decided to take no formal action until after the meeting of the stockholders, which took place tomorrow.

Connellsville probably will have one of the strongest teams in the league this year.

William Kummer, the color star basketball player, is in receipt of an offer from the New York River League team, offering him more money for the season than he received here last season. Kummer, a clerk at Smith House, has not decided whether he will accept. Joseph Cavanaugh, last year's center, is reported to have received an offer from Troy, also.

LESS BOWEL TROUBLE

Connellsville people have found out that a SINGLE DOSE of simple cathartic bars, glycerine, etc., as compounded in Adler's-Ka, the famous appendicitis remedy, relieves constipation, sour stomach or gas on the stomach INSTANTLY. This simple mixture intestinalizes the digestive organs and draws off the impurities and it is surprising how QUICKLY it helps. F. H. Harnening druggist, 6

SOCIAL CALENDAR

TUESDAY.—The daughters of the local hall will meet in odd fellows hall. The regular meeting of the Female County Medical Society will be held in Cantonment. The High School Alumni will meet at the High School. A meeting of the Sisters of the Trinity reformed church will be held in the church.

WEDNESDAY.—The Ladies' Auxiliary to the O. R. C. will meet in odd fellows hall.

THURSDAY.—The marriage of Miss Laura Hite of East End, Pittsburg, and John Schlegel, also of Pittsburg, will be solemnized in the morning in Sacred Heart Church. Mr. and Mrs. J. L. Stender and daughter Miss Angela, will attend. The O. W. B. M. of the Christian Church will meet in the church. The Women's Foreign Missionary Society of the Methodist Episcopal church will be held at the parsonage on South Pittsburg street.

B. & O. ESTABLISHES FREE LABOR BUREAU ON ITS LINES

Central Office at Baltimore with Branches in Several Large Cities.

A free labor bureau to bring the unemployed or those desiring to better their employment, in direct touch, is the latest innovation of the Baltimore & Ohio railroad. A labor agent in charge of it, R. R. Bricker, with title of labor agent, has been established at the central office. Branch offices also have been established in Philadelphia, Washington, Cincinnati, Cleveland and Chicago.

The labor bureau is identified in no way with the contract labor system. The labor agent is connected with the maintenance-of-way department, although the endeavor will be to supply workmen for all departments. No charge will be made for securing positions.

SEE IF YOUR CHILD'S TONGUE IS COATED.

If Cross, Irritable and Feverish it Means Waste-Clogged Bowels.

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pope's Dispepsin, and realize not only immediate, but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, fatty or out-of-order stomach five minutes afterwards.

If your meals don't sit comfortably, or when you eat like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pope's and take a dose just as soon as you can. There will be no sour things, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal cramping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pope's Dispepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disorder.

PERSONAL.

Mr. and Mrs. J. C. McCormick left this morning for Erie where they will visit relatives several days.

Mrs. J. B. Baer left Sunday morning for her home at Bellevue, after a week's visit with her mother, Mrs. Charles McCormick, West Fayette street.

Anty Drudge Helps Teddy.

Willie—"Mamma, mamma, I want you to come and play ball with Teddy and me."

Mother—"I can't little son. This washing will take me all the rest of the afternoon, and I'll be too tired to play to-day."

Anty Drudge—"My dear, if you had used Fels-Naptha soap in cold or lukewarm water to do this washing you would have been through long ago and would have felt fresh and bright enough to play with the children. Your clothes would have been cleaner and fresher, too. Just try it next washday, for your own sake and the children's."

There is nothing worse than hot water for making hands red and rough—unless it is common soap. Hot water and common soap make a combination bad for the skin.

Fels-Naptha soap helps to keep the hands nice. Fels-Naptha itself is healing to the skin. Then, with Fels-Naptha, you never have to put your hands into hot water.

Fels-Naptha soap washes clothes, washes dishes, and does all the cleaning about the house in cold or lukewarm water. No boiling, no steam; not even hot water.

Your hands are not made tender, and rough and red, but remain soft and smooth.

The work is done better, too, and in far less time than in the old-fashioned way with hot water. Why not have nice hands?

Follow the directions in the Fels-Naptha red and green wrapper.

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Sold by druggists everywhere. Address: World's Dispensary Medical Association, Buffalo, N. Y.

MR. CHAS. FARRER, JR., of 332 Woodlawn Ave., Philadelphia, Pa., writes: "I was troubled with my stomach for almost three years. Tried several doctors and most everything anybody recommended to me, but kept getting worse and honestly did not care to live as I was never well even though, at times, I had no pain. My symptoms were as follows: Always tired, my whole body in a shiver, belching of gas, pain and soreness in the stomach, vomiting, constipation, could not eat what I wanted to eat, and I was very nervous. But after taking Dr. Pierce's Golden Medical Discovery with the 'Fels-Naptha' it has made me a well man which is something to live for."

FOR THE WORKINGMAN SOUTH CONNELLSVILLE LOTS ARE BARGAINS.

W. F. Frederick Piano Co.'s New East Side Branch

130 South Pittsburg Street, near Main, Connellsville, Pa.

TO better serve the people of this fast growing city we have opened our second Connellsville store. Our East Side store is in the very midst of the city's commercial activities, yet far enough away from the noise and dust of trolley and traffic. We believe it is an ideal piano store. Here the patronage of the residents of the county's metropolis is solicited. Here, too, we invite the people of all the surrounding territory who can now so conveniently reach Connellsville by trolley or railroads.

In every essential our Connellsville stores are equal to our largest stores in any of the larger cities where the W. F. Frederick Piano Co. stores are the dominating piano establishments. Here you have choice of the world's acknowledged best pianos. Here you have the same Frederick unmatched prices. Here you have the same famous, liberal Frederick terms and the same unique and invaluable Frederick Service.

We propose to offer in our new Connellsville Store some exceedingly rare values. You may have choice of **Knabe Uprights and Grands, Chickering Uprights, Hardman Uprights, the original and conceded leader, Angelus (Player) Pianos.** We will show the unequalled **W. F. Frederick Autotone**, and among the famous player pianos will be **DeRivas & Harris, H. P. Nelson Players and the Princetons.** An unequalled display right at your door. Here you have the advantage of a million dollar stock. We know you will appreciate this splendid opportunity.

You have nearly unlimited Choice, and prices begin at \$110.00

During the sale, to those who desire it, especially easy terms are offered.

Remember, the new location. There'll be no brass bands. All the expense of fal-de-roll will be saved. We'll give you real money-saving bargains instead of cheap shows.

GREATEST LAKE ORE MOVEMENT IN HISTORY IS PREDICTED

United States Steel Corporation and Others Make Ready for Increase.

The greatest iron ore movement in the history of the Lake Superior region is being predicted for next year. The United States Steel Corporation is preparing for it, and is building four new steel vessels for next season's service, each with a capacity of 10,000 tons, in order to be prepared for the demand that will be made for the furnaces of that district.

In the ship yards of the American Shipbuilding Company in Lorain, O., there is nearing completion the first of these new ore boats. It will be launched during September, and will be christened the "James A. Farrell," in honor of the president of the Steel Corporation. It will be put into commission as part of the fleet of the Pittsburgh Steamship Company. Following will come the "Perceval Roberts, Jr.," a sister ship, and the "Richard T. Roberts." A fourth ship will be constructed in time. It is hoped, to be ready for the opening of navigation on the lakes next spring.

The four vessels mentioned will be 600 feet long and equipped for the quickest handling of ore and coal. There are other vessels coming out soon of other interests, to swell the total ore-carrying capacity of great lake lines materially. At the same time there is now a movement to increase the dock capacity along the lower lakes to meet new demands.

With about \$1,500,000 for new vessels and as much more for new docks, the Steel Corporation in 1913 expects to pass all former records in handling iron ore, and from statements of officials made yesterday, it is believed that this interest is expected 1913 to be the heaviest steel-buying year in the history of the company.

That this vast change in the iron business has taken place unexpectedly is shown by the fact that when the present year opened, all Lake Superior ore-mining companies were restricting output and looking for a small ore year. The supply diminished rapidly when to get trade started, prices were reduced. Today the consumption is so heavy that there are fears of a serious shortage before spring opens, and blast furnaces dependent upon the open market for their ore supply, and which have not yet provided for their wants, are unable to get their requirements except at higher prices than last year, and with a lower grade of ore, as the only available tonnage in sight.

The rush of steel companies and furnaces to protect themselves for next year, is regarded by many steel men as significant to the trade conditions for 1913. Every indication points, they say, to a greater expansion of the steel trade than ever before.

When You Want a Foreign Money the place to get it without any red tape is The Foreign Department of The First National Bank of Connellsville, 129 W. Main street. All languages spoken.

A Common Sight

A black and white photograph showing a steep, eroded bank of soil or rock, likely a result of a landslide or erosion. The surface is highly textured and uneven, with visible layers and cracks. The top edge of the bank is jagged and irregular.

Grand Canyon of the Yellowstone
from Inspiration Point

Some one has said that no matter what wonder of nature he heard existed he would not deny its possibility after he had visited the Yellowstone Park for there are so many astounding revelations on every hand. The geysers are, of course, the most prominent feature, and as they erupt at different times they are always inter-

By current consent the term, "Wonderland" has been applied to this park for it is the largest that we have, comprising 3,312 square miles, and it is the largest in the world in variety of phenomena. The Yosemite, Grand Canyon of the Colorado, Niagara and the Yellowstone have little in common—each is distinctive—but America has the largest and the most variety of phenomena in the world. The entire world is saving this park for the people and their heirs forever. Formerly it was popular to enter the park, make the circuit and return the same day. Now the majority of persons are entering at one entrance and passing out of the other—that is entering by the north and making the tour and leaving by the south entrance. The park is so large that the diversity of scenery going and coming to the park and enabling one to see the beauties of Colorado as well as the interesting Dakota and Northern Montana. The north entrance is considered as the official entrance to the park and which was dedicated by President Roosevelt in 1903 is at Livingston, Montana. No railway or electric line crosses the park and its case rests with the government. There are many instances of expensive road construction, new mountain trails have been laid out and bridges built. Some of the more than 100,000 many thousand dollars per mile, and as Congressional appropriations are practically small one is surprised to find that the government engineers have built

WHY

South Connellsville Lots

Are Bargains for the Purchaser

Whether he be Builder or Investor

They are the Cheapest and most Convenient suburban lots in the Connellsville market.

They are now in South Connellsville Borough, and have the guarantee of borough government for proper Streets and Sewerage at practically the same rates of Taxation as prevailed when they were part of Connellsville Township.

They already have City Water, Electric Light, Natural Gas and prompt and excellent Trolley Service. The public schools are convenient and efficient.

The little town is growing steadily and with it real estate values. It is the seat of numerous industries and convenient to all of Connellsville's mills and mines by reason of the trolley service. It is no longer separated from Connellsville by unimproved lands. The town is continuous from Connellsville to South Connellsville.

WORKINGMEN who have an ambition to own their own homes can find no more desirable location at the price.

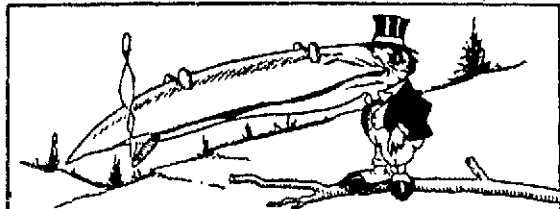

INVESTORS looking for real estate easy to handle at promising profits will find it here.

ARIZONA BRONCHOS.

Like the Little Girl With a Curl in the
Center of Her Forehead.

When the Arizona broncho wishes to
be safe for you and for himself he is
the safest thing in the world, and
when he wishes to be unsafe life is a
nervy chance.

I went up and down trails in Arizona
which were almost perpendicular
and rough and stone strewn too. But
there was little danger, for the broncho
has, not the "tea pound," but the
"thousand pound" look. His nose is to
the ground, his eyes fastened on the
trail, his footstep the most beautifully
careful thing the mind can conceive.
One foot placed before the other cases
and preserves the balance, adjusts the
weight for another, and all this wonder-
ful machinery of equipoise, stability
and safety you feel working under
you like a delicate machine.

Yet this same plowman of the trail,
with his meticulous care of you and
himself, was just a wild range pony,
hunted down by the range rider, driven
coated or bridled into a corral,
broken, saddled, dugged and ridden all
in one hour; wrenched out of his wild-
ness, having his heart broken and made
into a slave while you would eat
your breakfast.

He is not a beauty; he is just a
monster. But his face and his feet are
made of iron and steel, and the work
he does over awful trails, in a rough
and rugged country, strewn with

stones and clots and bowlders and
lava and scrub, week after week, month
after month, and year after year,
would spoil the legs of a thorough-
bred in three days.—Gilbert Parker in
August Metropolitan.

Mistakes of Authors.

The author of "Don Quixote" makes
the party at the Crescent tavern eat
two suppers in one evening. Scott in
one chapter of "Ivanhoe" gives the
Christian name of Melvolain as Rich-
ard, subsequently altering it to Philip.
Lope makes a weasel eat corn. Kings-
ley makes John Brumlecombe read
the prayer for "all sorts and condi-
tions of men," though in the time of
Elizabeth the prayer book did not
contain it. Sir Peregrine Pickle
when he means Sir Peregrine Pickle,
and the same author translated
"droit de Seigneur" as timber duty, "a
howler," which is only equaled by Vic-
tor Hugo's translation of "Birth of
Forth," "premier de quatre."

To View Eclipse at Rio de Janeiro.

The total eclipse of the sun, which
will be visible near Rio de Janeiro on
Oct. 10 next, will be witnessed by
great parties of foreign astronomers
from Europe and South America. The
American ambassador, Mr. Dudley,
has expressed to the state department
the hope that the American institu-
tions will be represented.

HILL'S ADVICE FOR FARMERS

Simple Lessons All That Are
Necessary.

SOIL RENEWAL CHIEF NEED.

Great Northern's President Says Soil
Examination, Fertilization, Seed Se-
lection, Rotation of Crops and Thoro-
ugh and Repeated Cultivation Are
the Essentials.

James J. Hill, the railroad builder,
has contributed one of the most sensi-
ble talks on the need of farmers recent-
ly appearing in the public prints. In a
recent letter to the New York Times
the "empire builder" and former presi-
dent of the Great Northern says:

"The importance of instruction for
the work of the farm is now universa-
lly recognized. The number of institu-
tions teaching agriculture in the United
States increased from 545 in October,
1908, to 875 in May, 1910, a gain of
more than 60 per cent in nineteen
months. Agricultural colleges receiv-
ing federal funds are in operation to-
day in every state of the Union. There
were 10 per cent more students in agri-
cultural institutions in 1910
than in 1909 and more than eight times
as many students taking the teachers'
course in agriculture. Since then the
work has grown rapidly. Extension
work, short courses, farm institutes
and the running of instruction trains
by the railroads at their own expense
are now familiar and popular features.
The movement to educate has acquired
much headway.

"Our experiment stations, schools
and colleges are doing good work, but
it falls short of our immediate needs.
They are mainly engaged in educating
teachers. Maintaining the farm itself
inhabits. Only a small percentage
of the children of farmers become stu-
dents in these institutions. Only a
small percentage of those go back to
the farm. The soil is tired, the crops
are raised, for the most part, by men
who cannot attend college, high school
or extension course. In a generation
or two the educational process going
on may leave the whole lump. But
the country cannot afford to wait for
that.

Soil Renewal.

"The condition of the farm and the
statistics of production cry out for in-
struction, and at once, for the whole
body of farmers. Soils that once pro-
duced from twenty-five to forty bushels
of wheat in the acre now give from
ten to twenty. England and Germany,

once as reckless of impoverished soil
as we, have raised their average yield
to more than twice ours under far less
favorable circumstances. We can do
the same with greater ease.

"What are the steps? I am refer-
ring now only to what the uneducated
man can do. If a man is sick he must
have a doctor to diagnose the disease
and prescribe the right remedy. So
with the soil. The evidence of its
sickness is inadequate yield. It needs
medical treatment. Send a sample of
it to the nearest experiment station
for analysis. The analyst can deter-
mine what elements have been ex-
hausted by careless cultivation; what
particular form of fertilization will re-
store that soil to high productivity.
This will give the farmer the exact
practical information for the first step.
It is almost the only purely technical
question that he has to face.

How to Test Seeds.
"The next step is seed selection.
This is surely farm work. Every
farmer should plant his seed for ger-
mination before planting. This he can
do quickly in a small wooden box with
a few inches of earth in it, covered
with a white cloth marked out in
squares. Place 50 or 100 seeds in each
square, moisten the earth, keep it in a
moderately even temperature and
count the number of seeds that sprout.
An expert can do no more.

"Soil examination, fertilization, seed
selection, rotation of crops and thoro-
ugh and repeated cultivation—these
are the essentials. The last mentioned
means deep plowing, frequent harrow-
ing, bringing and keeping the soil in
condition to favor growth.

"There is nothing here requiring tech-
nical education. Put the best qualified
specialist in the country on 100 acres
of land and he could do no more, and
every industrious farmer can do this
on his own land, and he will get as
good results. By nothing more com-
plex than the general adoption of these
methods \$8,000,000,000 or \$9,000,000,000
might be added yearly to the national
wealth and the farmers of the coun-
try be elevated to comparative afflu-
ence.

"Agricultural education for today,
then, resolves itself into the extremely
practical question of how to get not
students, but the men actually on the
farm, to do these few simple things
that transform farming from a labori-
ous occupation of many hazards into
a safe and profitable industry."

Passing of the Silk Hat.

Any one who is familiar with pic-
tures of English school life, whether
depicting classrooms or cricket fields,
will remember the conspicuous appear-
ance of the silk hat on the heads of
the students. All this is now to
change. Rugby after this term will
discontinue the use of the silk hat,
and Eton is likely to follow its ex-
ample.

Slander is the revenge of a coward,
and dissimulation his defense.

ONE MILLION WOMEN VOTERS

Census Shows That More Than
That Have Right.

NOW SIX SUFFRAGE STATES.

California and Washington Women
Will Vote For President For First
Time—1,346,925 of Voting Age, of
Whom Nearly Half Are of Native
Parentage.

The women of six states will partic-
ipate in the coming presidential elec-
tion, those of California and Washing-
ton for the first time. It is estimated
that about 1,000,000 of them will vote,
although considerably more than this
number have the right.

A preliminary statement has just
been issued by Director Burdett of the
census bureau giving the number of
women of voting age in the six states
in which they have the right to vote
in all elections. In this statement the
number of such women is distributed
according to color, nativity and parent-
age for each state as a whole and for
each of its cities of over 25,000 in-
habitants.

In using the figures contained in this
statement it should be understood that
they do not represent the number of
actual women voters, but rather the
number who at the time the census
was taken in April, 1910, were eligible
to vote from the standpoint of age
alone, aside from any qualifications
based upon naturalization, education,
length of residence or considerations
of a like nature, and, furthermore, that
no account is taken of those who have
become of age since April, 1910, or of
those who may have died since that
date.

Distinction is made in the statement
between white females of native and
foreign birth, respectively, and also for
the native white with respect to par-
entage. Those having both parents
natives of the United States are
classified as of native parentage; those
having either both parents born abroad
or one parent native and one parent
born abroad are classed as of foreign
or mixed parentage.

The whole number of women in these
six states taken together who were of
voting age in 1910 was 1,346,925, of
whom 654,754, or 48.6 per cent, were
natives of native parentage; 338,-
925, or 24.7 per cent, native whites of
foreign or mixed parentage; 327,682, or
24.3 per cent, foreign born white;
13,488, or 1 per cent, negroes, and

Failed.
The lovers whispered together before
the doors of her father's bungalow,
planning the last details of their elope-
ment.

"Hurry, dearest," he urged. "We
will wheel out your runaway mono-
plane and together we'll fly away on
the wings of the night, nevermore to
be separated."

"Wait," she exclaimed. "I have a
better plan. We will run it out and
hide in the old stable; then we will
walk to the trolley and papa will nev-
er suspect us."

They were hardly half a mile on
their way down the road when from
overhead came the roar of the triple
propellers of the racing monoplane as
papa dashed out into the darkness in
hot pursuit.—Peck.

We know best what we are least con-
scious of knowing.—Samuel Butler.

REFUSED ROCKEFELLER JOB.

But the Cleveland Boy Who Took It Is
Now Rich.

When Jeff W. Hayes, a pioneer tele-
graph operator, who lost his sight four-
teen years ago and who returned re-
cently to Cleveland after thirty-seven
years' absence, was a boy of twelve,
employed as a messenger by the West-
ern Union Telegraph company, he re-
fused a job offered him by John D.
Rockefeller. The boy who took it is
now a prominent Cleveland citizen.
Hayes used to carry messages to the
old firm of Rockefeller, Andrew &
Flagler. There he often saw Mr. Rock-
efeller.

"Mr. Rockefeller stopped me one day
and asked me if I would take a job as
office boy with his firm," related Hayes.
"He said that he would give me \$3 a
week. I was making \$4 a week then,
and I wouldn't take the place."
"The boy who took the job was Dan
Leslie," added Hayes. Mr. Leslie, who
is rich now, was a member of the con-
stitutional convention and a former di-
rector of public service.

The Hard Part First.
"I hear you've got a government job
now," one man said to another.
The other answered gayly
"That's what."

The first man gave an envious sigh
and asked:
"Is it hard work?"
"Not after you get it," was the reply.
